APEX Workshop 2013

Friday 20 December 2013

Studies Regarding Low Energy Operations - auditorium (09:00-10:40)

- Conveners: Mr. Gardner, Chris

time	title	presenter
09:00	Sqrt(s)=5GeV/n Au Studies	MONTAG, Christoph
09:25	Possible Beam Experiment to Verify if Shrinking Hysteresis Cycles That Would Work to Demagnetize a Room Temperature Magnet Could Be Applied to Mitigate Sextupole Fields Caused by Persistent Currents in the RHIC Dipole Windings	THIEBERGER, Peter
09:45	Low Energy e Beam Cooling Related Studies	FEDOTOV, Alexei
10:10	Space Charge Dominated Beam Dynamics Issues	FRANCHETTI, Giuliano
